Chip Cards

New chip MasterCard Credit cards, now available through ECU, have a computer chip and offer extra security. The chip provides further protection from identity theft and fraud.

Current MasterCard holders will receive their new chip cards in early April, 2008.

For more information, visit our website and click on the 'Chip Card Evolution' link.

Just say 'No Sur!'

ECU members now have even more options for surcharge free ATM withdrawals in the United States. Complimenting the existing 190,000+ Exchange network ATMs in the U.S., this new network is identified as No SUR!

The new No SUR! network has over 900 surcharge free ATMs and all are identified with the No SUR! brand. Members are guaranteed their withdrawals are surcharge free at all of these ATMs and new ATM locations are always being added to No SUR!

Cardholders can easily identify these ATMs using the US EXCHANGE/ACCEL ATM locator at www.the-exchange.ca or while travelling in the U.S. simply look for the No SUR! brand displayed on the ATM as shown on right.
